

The person who runs the site: its structure, permissions and safety. They hold every permission. They set up units, appointments, permissions, courses, lists, alerts and backups, and they create or repair accounts.

## YOUR FIRST THREE STEPS

1. Open Units & Roles and check the units and appointments.
2. Open Permissions and review what each role can do.
3. Open Backups and download one.

## WHAT YOU WILL DO, AND WHEN

|                                       |                                                                           |
|---------------------------------------|---------------------------------------------------------------------------|
| <b>APPROVE NEW ACCOUNTS</b>           | Let genuine members in. <i>When needed</i>                                |
| <b>SET POSTINGS FOR TRAINEES</b>      | A batch at a time, checked before saving. <i>When needed</i>              |
| <b>READ AND HANDLE FEEDBACK</b>       | Complaints, suggestions and praise. <i>When needed</i>                    |
| <b>KEEP THE DOCTORS LIST</b>          | Everyone who can be named, with or without an account. <i>When needed</i> |
| <b>REVIEW TYPED-IN ENTRIES</b>        | Add them to the lists, or dismiss them. <i>When needed</i>                |
| <b>SET UP THE DEPARTMENT</b>          | A checklist, in the order that works best. <i>Start here</i>              |
| <b>LOOK AFTER ACCOUNTS</b>            | Create, promote, rename and reset. <i>Regularly</i>                       |
| <b>DECIDE WHO CAN DO WHAT</b>         | Permissions for each role, and extras for individuals. <i>Regularly</i>   |
| <b>DEFINE COURSES</b>                 | Length, scope and peripheral postings. <i>When needed</i>                 |
| <b>SEND ALERTS</b>                    | Write your own, and manage the automatic ones. <i>When needed</i>         |
| <b>BACK UP AND RESTORE</b>            | One file holds the whole logbook. <i>Regularly</i>                        |
| <b>EDIT THE LISTS AND EXPORT DATA</b> | Dropdowns, units and CSV files. <i>When needed</i>                        |

## YOU CAN

- Everything, including the Developer-only settings

## YOU CANNOT

- Delete, deactivate or demote the last Developer account.
- Decide a trainee's account closure. That is the Head of Department's decision.

## RULES EVERYONE FOLLOWS

- Never enter a patient's name. Use the Hospital Number only.
- Nobody can sign off their own record, whatever else they are allowed to do.
- Consultants sign records but do not edit them. The trainee makes any correction.
- A signed record is locked. To change it, the signer (or a Head of Unit, Coordinator or Head of Department) must unlock it first.

Need help? Open Guide in the menu for the full steps, or press the ? beside a screen's title. You can also use Feedback. If you forget your password, choose "Request a reset" on the sign-in page.
