

The person who runs the site: structure, permissions and safety. Holds every permission. Sets up units and appointments, permissions, courses, lists, alerts and backups, and creates or repairs accounts.

YOUR FIRST THREE STEPS

1. Open Units & Roles and check the units and appointments.
2. Open Permissions and review what each role can do.
3. Open Backups and download one.

WHAT YOU WILL DO, AND WHEN

APPROVE NEW ACCOUNTS	Let genuine members in. When it comes up
SET POSTINGS FOR TRAINEES	A batch at a time, checked before it is saved. When it comes up
READ AND HANDLE FEEDBACK	Complaints, suggestions and praise. When it comes up
KEEP THE DOCTORS LIST	Everyone who can be named, with or without an account. When it comes up
REVIEW WHAT PEOPLE TYPED	Promote it to the lists, or dismiss it. When it comes up
SET THE DEPARTMENT UP	A checklist, in the order that works. Start here
LOOK AFTER ACCOUNTS	Create, promote, rename, reset. Regularly
DECIDE WHO CAN DO WHAT	Bundles per role, extras per person. Regularly
DEFINE COURSES	Duration, scope, peripheral postings. When it comes up
SEND ALERTS	By hand, and the automatic ones. When it comes up
BACK UP AND RESTORE	One file holds the whole logbook. Regularly
EDIT THE LISTS AND EXPORT DATA	Dropdowns, units, CSV. When it comes up

YOU CAN

- Everything, including the Developer-only settings

YOU CANNOT

- Be locked out: the last Developer account cannot be deleted, deactivated or demoted.

RULES EVERYONE FOLLOWS

- Patients are never named. Every entry uses a Hospital Number only.
- Nobody can sign off their own record, whatever else they are allowed to do.
- Consultants sign records; they do not rewrite them. Correcting a record is the trainee's job.
- A signed record is locked. Changing it needs the signer (or a Head of Unit, Coordinator or HOD) to release it first.

Stuck? Open Guide in the menu for the full steps, press the ? beside a screen's title, or use Feedback. Forgotten password: "Request a reset" on the sign-in page.
