

A fellow: logs their own work like a resident, and can be given a few oversight tools. Everything a resident does. The Head of Department can additionally give a fellow the roster, sign-off or a few viewing permissions; the menu then shows them.

YOUR FIRST THREE STEPS

1. Add your postings under My Postings (your home unit plus any peripheral posting).
2. Log your first entry from the Dashboard tiles.
3. Check the menu: roster and sign-off appear only if you have been given them.

YOU CAN

- Log, edit and send your own entries
- See your own progress and export it

YOU CANNOT

- Hold anything beyond viewing, exporting and sign-off permissions, whatever they are given.
- Sign off their own record.

RULES EVERYONE FOLLOWS

- Patients are never named. Every entry uses a Hospital Number only.
- Nobody can sign off their own record, whatever else they are allowed to do.
- Consultants sign records; they do not rewrite them. Correcting a record is the trainee's job.
- A signed record is locked. Changing it needs the signer (or a Head of Unit, Coordinator or HOD) to release it first.
